## See Drop-Off Outside an Event? Report Environmental Crimes!

We strive to make waste disposal convenient, but there are those who disrespect our guidelines and our environment. We need your help. Dumping trash and/or household hazardous waste onto private or City property, or into a storm drain is considered an environmental crime and it's illegal. **If you witness illegal dumping or any environmental crime, please call (954) 828-5700.** Be prepared to provide the suspect's description, tag number, and a vehicle description, including any markings, damage, or business name imprinted on it. Phone calls will be confidential and, if desired, callers will remain anonymous.
